Flexible

Multiple-use devices

ENHANCED MANAGEMENT OF YOUR ENDOSCOPES

The *Soluscope Trolley, Soluscope Rack* and *Soluscope EasyTag* are designed to optimise the endoscope turnaround between examination and reprocessing rooms. They are compatible with *DSC8000* storage cabinet trays and *Soluscope* transport trays.

SOLUTION FOR ALL SITUATIONS

Beyond its transport function, the *Soluscope Trolley* is suitable to store up to 4 ready-to-use endoscopes for multiple exams or when the examination room is at a distance from the reprocessing room. It can also be used as a cart at the patient's bedside thanks to its ideally positioned tabletop.

SOLUTION FOR ALL ORGANIZATIONS

Soluscope EasyTag labels are made of 2 self-adhesive green and red stickers allowing you to quickly see if your endoscope is ready to be used or if it has to be reprocessed. Intuitive, they are easily and transparently integrated into the daily organization of all endoscopy units.

FOR ALL KINDS OF ENDOSCOPES

The *Soluscope Rack* temporarily stores clean endoscopes or rarely used endoscopes.
It can also store dirty endoscopes after exams while awaiting reprocessing.

Ergonomic

pe Trolley & Rack offers a concept specially designed for endoscope handling and easy
This solution improves your team's daily workflow in an efficient manner
giving you comfort and peace of mind.

Your life made easier

MODULARITY

The *Soluscope Trolley* is compact and adapted to small spaces. It can transport up to 4 endoscopes at any given time. It includes three accessories you can use according to your needs: a tabletop for surgical drapes, sterile gloves or other medical accessories, a document holder to transport patient files, and a special compartment to transport cleaning agents used to disinfect the tray. Its large noiseless wheels make it a pleasure to handle, not to mention its outstanding original and modern design.

OPTIMIZATION

Large in size and easy to remove, *Soluscope EasyTag* improves the visible state of your endoscopes allowing better efficiency in managing your daily endoscope flow.

10 ENDOSCOPES

The *Soluscope Rack* can store up to 10 trays. Its small footprint can allow you to fit it in small spaces. It's the ideal accessory to *Soluscope* AERs and cabinet portfolio to extend your storage capacity.

EASY MAINTENANCE

The *Soluscope Trolley* and the *Soluscope Rack* are easy to clean with a surface detergent or disinfectant solutions.

Safe

transport.

Safety above all

HIGH-LEVEL PROTECTION

Once positioned in the tray and covered with its individual lid, the endoscope is protected from physical shocks or kinking and from cross-contamination during transportation to the examination room. Medical staff are protected from any microbiological contamination.
Moreover, the *Soluscope Trolley* and the *Soluscope Rack* are equipped with sliding rails to prevent the trays from falling.

A CLEAR VISION

Wherever your endoscope is, *Soluscope EasyTag* indicates if your endoscope is ready to use, avoiding errors and keeping patients safe. The visible status of the endoscope makes it possible to protect the user from all risks of contamination.

STABLE

The guiding wheels of the *Soluscope Trolley* are equipped with brakes providing better stability.
